

HUMIDIFIERS, DEHUMIDIFIERS AND EVAPORATIVE COOLERS

Humidity Control and Evaporative Cooling

A COMPREHENSIVE PRODUCT RANGE

Condair offers a complete range of air humidification and dehumidification systems. Being able to select from every available technology allows Condair to closely meet every project's individual needs with the most suitable product.

STEAM HUMIDIFIERS

Condair EL
Electrode boiler humidifier
Reliable steam humidification that is easy to install, use and service.

Condair RS
Resistive humidifier
Innovative scale management and no disposable boiling cylinders.

Condair CP3 Mini
Low capacity electrode humidifier
Up to 4kg/h of steam direct to a room or to an AHU.

Condair RM
Low capacity resistive humidifier
Offers 2-8kg/h of steam for in-duct humidification.

Condair GS
Gas-fired humidifier
Steam humidification with the operating economy of gas.

Condair ESCO
Live steam humidifier
Uses a building's existing hygienic steam supply.

Condair SE
Steam-to-steam humidifier
Uses a building's impure steam supply to create pure humidifying steam.

ADIABATIC HUMIDIFIERS

Condair ME

Evaporative in-duct humidifier

Provides low energy humidification and evaporative cooling.

Condair DL

Hybrid in-duct humidifier

Close control, spray and evaporative humidifier.

Condair HP

High pressure in-duct humidifier

Spray humidifier delivering humidification and evaporative cooling to multiple AHUs.

Condair US

Ultrasonic in-room humidifier

Very low energy cool mist humidifier with fan unit.

Condair JetSpray

Compressed air and water spray humidifier

Direct room spray humidifier with rapid evaporation and highly directional aerosols.

ML System

High pressure in-room humidifier

Water treatment and pressurisation plant with a selection of direct air nozzle systems.

Defensor PH

Mobile evaporative humidifier

Suitable for areas up to 900m³ and can be plumbed-in or fed via a water tank.

Condair ABS3

Rotary Disk Atomizer

Economic cool mist system ideal for production and agricultural areas.

DEHUMIDIFIERS

Condair DA

Desiccant dehumidifier

Ideal for drying at low temperatures or when low humidity levels are needed.

Condair DC

Condensing dehumidifier

Ideal for drying down to around 50%RH and at temperatures above 15°C.

Condair DP

Swimming pool dehumidifier

A comprehensive range of dehumidifiers for small to large commercial pools.

OTHER PRODUCTS

Condair RO

Water treatment system for humidifiers.

Condair OptiSorp

Rapid evaporation steam distribution system.

A Comprehensive Service

Condair offers a complete before and after sales service.

Expert advice and system design

Free guidance on best practise in humidity control, product strategy, selection and sizing.

Installation and commissioning

Delivering the manufacturer's expertise on-site for optimum system set-up.

Experienced humidifier technicians

Providing reactive or planned preventative maintenance agreements.

Spares department

Experienced staff help you identify which part you need and get it to you quickly and efficiently.

Global Expertise, Local Solutions

Condair has manufacturing facilities in Asia, North America and Europe, as well as sales operations in 20 countries and distributors in over 50 more.

The company has been serving global industry and commerce for over 80 years and is highly experienced in creating the ideal environment for improved manufacturing efficiency, human health or preservation.

With continuous investment in product development, Condair maintains the world's most advanced range of humidity control systems. Ongoing product innovation ensures Condair's products offer the lowest possible energy consumption, provide users with low maintenance operation and the highest possible technical performance.
